# Develop shared understanding and empathy

Summarize the data you have gathered related to the people that are impacted by your work. It will help you generate ideas, prioritize features, or discuss decisions.

- Economic freedom means that people can engage in trade with any persons of their choosing.
   personal choice, voluntary exchange coordinated by markets, freedom to enter and compete in markets.
- freedom to enter and compete in markets.

  3. The 5 basic economic principles include scarcity, supply and demand, marginal costs, marginal benefits and incentives.

  4. The protection of private property rights, and a minimal

government presence in the economy lead to prosperity.

## What do they SEE?

- 1...A market economy has freedom of choice and free enterprise. Private entrepreneurs are free to get and use resources and use them to produce goods and services.
- 2..The EU Gren deal and its impact on economic transformation provoked a slightly forgotten free market vs market regulation discussion, but in the light of new context -economic and environmental performance delevopment.

### What do they SAY?

- 1..The cornerstones of economic freedom are personal choice,voluntary exchange,freedom to enter markets and compete and security of the person nd privately owned property.

  2..Economic freedom is the
- 2..Economic freedom is the fundamental right of every human to control his or her own labour and property.
